

HILTON, HUGHES & CO.'S "HARVEST HOME" FESTIVAL

has caught the town. No wonder; nothing approaching it in novelty, beauty or magnitude of display has ever been seen in this country.

"It is like a dream come true."
"I've been pinching myself to see if I'm awake."
"I didn't think a store could be made so beautiful."

And so the comment of the women ran. And so it will run long as the plants and flowers, and fruits and birds and the miles of garlanded Autumn leaves remain.

And the great merchandise stocks cause almost equal wonder. Rich things from all over the world with especial place given just now to the newest conceits in

and like things. But there is no check to the wonderful selling that has of late been going on in Silks, Dress Goods, Carpets, Upholstery, Furniture, Hosiery, Warm Underwear, Books, Groceries and Housefurnishings.

The whole store is swinging magnificently forward at a record-breaking gait such as was never seen before in American retailing.

Goods that you want, qualities that you ought to buy, and at prices that only a world-wide reach and control of the markets can make, are the secret of it all.

What comes next to man? Usde wear.

What a time we had getting underwear for you odd shaped men, who've grown up wearing ill-fitting underclothes.

Makers wouldn't bother to knit short legs and large waists, or long legs and small waists—easier to strike a happy medium. "No demand" they said. Of course there's no demand while you small, slender, or short-stout men are contented to take a reef in the waist, legs or sleeves of your underwear—all because the dealer found it easier than to carry a big stock including your special sizes.

We've raised the standard of sizes in underclothes, to which the unhappy extremes as well as the happy mediums may repair and be satisfied.
